

200,000 Hay Fever Victims in the United States

Season of Sneezes at Hand — How to Obtain Relief

August is hay fever time. From the number of its victims, asthma and hay fever is fashionable, for it cripples as appendicitis as an aristocratic ailment. Everybody who possibly can hies away to an atmosphere that will not cause red noses and red eyes, but there are many who are unable, financially, to join their ranks. To all such, Warner's Safe Asthma Remedy proves a boon, for it has been a prompt relief from this spasmodic bronchial affection during the past forty years. Hay fever and asthma sufferers who have tried numberless other remedies without success are loud in their praise of the sure and prompt relief Warner's Safe Asthma Remedy invariably affords. Simply the fumes from a half teaspoonful burned in a saucer when drawn through the mouth and throat, and held there as long as possible, then let out through the nostrils gives prompt relief.

Witness what this man says, and hundreds of others have been equally benefited: "I had asthma very bad and had to sit up night after night. Could get no relief until I took Warner's Safe Asthma Remedy. In five minutes I was breathing easy and went right to bed and slept. I would not be without it."—Mr. W. J. Hanson, Wollaston Mass. KANSAS CITY TO BE OIL CENTER SAYS SINCLAIR

OKLAHOMA OIL KING PREPARING TO BUILD PIPE LINE TO EAST

Kansas City, Aug. 25.—There is nothing strange or mysterious in the recent decline in the price of crude oil from \$1.55 to 95 cents a barrel, declared Harry F. Sinclair, president of the Sinclair Oil and Refining Company, who was at the Hotel Ruchbach yesterday en route to Tulsa from New York. With him were his brother, E. W. Sinclair; A. E. Watts and E. R. Kemp, David J. Kelly of New York, president of the Mathlattan Oil company, also was in the city.

"With oil at \$1.55 a barrel," said Mr. Sinclair, "there was a feverish activity in drilling which caused a congestion in the production. This soon adjusted itself and the market is recovering."

Bankers Recognizing Business.

That Kansas City should be the oil center of the United States was the declaration of Mr. Sinclair. "A short time ago," said "Kansas City bankers gave absolutely no standing to oil securities. They are waking up now, however, and will give them recognition along with any others. Motor car securities have been given first consideration by bankers the world over. What is a motor car without oil? If there should be a cessation of production of oil for five days the motor business would be paralyzed."

"Kansas City is not in sympathy with the oil business but it should be. It is the central town of all the oil fields."

The Sinclair Oil and Refining Company now is building a pipe line from Cushing to Chicago, 800 miles in length. The line is eight inches in diameter and will have a daily capacity of 20,000 barrels. The cost of the right of way, the line and the pumping stations, which are located every thirty-five miles, will be \$10,000,000. The line was financed as a part of the Sinclair Oil and Refining Company. It is laid eighteen inches underground and does not interfere with the farming of the land through which it runs. It will go under the Missouri and Mississippi rivers, and will pass to the south of Kansas City. To build refinery here.

"A corporation such as the Sinclair Oil and Refining Company must crawl before it can walk," said Mr. Sinclair. "We are already covering a number of the mid-western states. The well-to-do plan is the only one we will branch out and cover other states as our pipe line will permit. Our pipe line to Chicago will give us access to all states on the Great Lakes. There eventually will be a

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician. If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones. Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

"The Man Who Keeps Cool" may not be a good politician, but he has solved the problem of comfort and contentment. He starts the day right by eating **Shredded Wheat Biscuit** with milk or cream. He eats it for luncheon with berries, sliced bananas or other fruits. He makes Shredded Wheat his meat in the hot days. It is ready-cooked, ready-to-eat.

ATLANTIC CITY TO BAR WOMEN WITH BARE LEGS

Atlantic City, Aug. 25.—Bare legged women will not be tolerated on Atlantic City's bathing beach next summer. Harsh or not, the decree went forth today to take effect June 1, 1917.

Its promulgation at this time is designed to give ample notice to thousands of summer visitors shortly to depart, who include fascinating beach toilettes of the latest modes among the wardrobe they bring shoreward every season.

"The stockless fad has been carried to extremes," Beach Director Rossert stated.

118 SUICIDES IN GERMANY IN MONTH

NEWSPAPER TELLS OF A MOTHER SHOOTING SELF BEFORE PALACE; HUNGER CAUSE

London, Aug. 25.—One hundred and eighteen persons, women mostly, committed suicide in Germany in a month because of misery and starvation.

So wires the Geneva correspondent of the Daily Express today. He says his information comes from Munich and adds:

"A mother accompanied by her three young children, shot herself before the gates of the royal palace in Munich in the presence of the sentries. A placard was found pinned to her breast:

"Your majesty, feed my children, I can not."

"Patents are abandoning their children in the parks in increasing numbers. The police have collected nearly 200 children in the Rhine towns. The local insurer expresses indignation because thirty-two children were abandoned in Berlin last Sunday."

CATMEAL BOX BRIDE LEAVES HER MATE

KATE KANE WHO MET HUBBY THROUGH NOTE SHE WROTE IN FACTORY TIRES OF HIM

Chicago, Aug. 25.—Peter Askra of Rockford, has lost the wife from Chicago that he practically found in an oat meal box. She was Miss Katherine Kane. She worked in a factory here and one day wrote her name and address on a slip of paper which she tacked in an oatmeal box. Peter's brother found the slip and went to see her. He was not favorably impressed, but Peter took up the matter and married her in Rockford on June 22. Askra owns an automobile, bought his bride fine clothes, and he gave her money to spend, but never the less after one week she left, ostensibly to visit her mother in Chicago, promising to be back soon. She has not returned and the fact that she took all her clothing indicates that she did not intend to do so. Askra still corresponds with her.
